

CHILDCARE WORKER PROGRAM

Child Development Associate (CDA) - 120 hours

Interested in entering the early childhood profession, a growing field of great opportunity and also looking for a career pathway, and to learn how to be an effective teacher of young children, then a childcare worker may be the right career path for you.

Childcare Workers (CCW) are direct care educators who provide services in childcare settings and school-based programs. These professionals have the role in supporting other professionals, including teacher assistants, teachers, and caregivers, in attending to children's needs while helping to foster early childhood development.

Childcare Workers (CCW) facilitate daily routines with focus to supervise and monitor the safety of children, prepare and organize mealtimes and snacks for children, help children practice good hygiene, and change the diapers of infants and toddlers. CCWs also organize activities or implement a curriculum that allows children to learn about the world and explore their interests; develop schedules and routines to ensure that children have enough physical activity, rest, and playtime; observe for signs of emotional or developmental problems in children, and bring potential concerns to the attention of others. Record keeping of children's progress, routines, and interests is an important task.

What is a Childcare Worker?

"Educators provide critical services to our community. They are brain builders, providing care and education that supports children's learning and development during the period when brain development is most sensitive. Their service allows other workers to do their jobs."

Center for the Study of Childcare Employment - University of California, Berkeley, cscce.berkeley.edu. (Workforce Index 2020)

Child Development Associate Preparation Training:

Is the childcare worker program right for me?

Childcare workers usually work with a team of individuals, parents, children, teachers, assistant teachers, directors, early interventions specialists, and other childcare professionals. Positions can be full time or part time; irregular hours are common.

Childcare workers can work in

- Childcare centers
- Own home
- Private households
- Family childcare locations
- Head Start
- Early Head Start
- Independent arrangements

This program will provide you with work progression to assist in reaching goals and qualifications, while preparing you for employment and occupational mobility.

Childcare Workers Estimate Wages in New York
Annual Mean Yearly Wage: \$55,100
Annual Mean Hourly Wage: \$27.70
